

Same-Day Surgery

1994 Index

Accreditation

Expect to search for standards in 1994 accreditation manual, MAY:69

Anesthesia

Diabetic patients require special care in same-day surgery, MAR:33
Experts debate NPO: An absolute rule or a guideline? APR:45
Making anesthesia work in a same-day surgery setting, MAY:68
Want a smooth patient recovery? Check out advances in anesthesia, MAY:65

Cost containment

AMA puts economic credentialing under microscope, DEC:151
Computerizing inventory cuts costs, modernizes SDS, MAR:29
Economic credentialing: Does need for profitability jeopardize fairness to MDs? DEC:149
Gearing up for a new era in surgery: Robotic assistance, JUL:87
Laparoscopic aspiration technique uses inexpensive needle, DEC:154
Look over this list before choosing quality criteria, DEC:153
NH center nets \$14,000 by phasing in reusable instruments, AUG:101
SDS managers' No. 1 problem in the '90s: Cost containment, OCT:134
Seattle center saves \$50,000 by standardizing equipment, APR:50
Tired of throwing money away? Manage your OR waste responsibly, JUN:73
Want to net large savings? Modify your same-day surgery inventory practices, MAY:57
Quality vs. economics: Where do you draw the line? DEC:152

Critical pathways

The latest on critical pathways: Intra-op, post-op phases added, NOV:145

Diabetics

Diabetic patients require special care in same-day surgery, MAR:33
Follow these suggestions when handling diabetic patients, MAR:35

Documentation

From overwhelming paperwork to an administrative dream come true, DEC:156
Preadmission form streamlines process, meets guidelines, OCT:130

Economic credentialing

AMA puts economic credentialing under microscope, DEC:151
Economic credentialing: Does need for profitability jeopardize fairness to MDs? DEC:149
Look over this list before choosing quality criteria, DEC:153
Quality vs. economics: Where do you draw the line? DEC:152

ENT

New guidelines may reduce the number of ENT surgeries, SEP:123
New technique that eliminates snoring is marketer's dream, SEP:122
Study on appropriateness raises questions about ear tubes, JUL:89

Finances

APGs are a step closer to reality as Iowa launches first outpatient PPS, JUL:85
AMA puts economic credentialing under microscope, DEC:151
Considering building or expanding? Do your homework, SEP:118
Economic credentialing: Does need for profitability jeopardize fairness to MDs? DEC:149
Look over this list before choosing quality criteria, DEC:153
Networks offer a shot in the arm for financial viability of SDS, AUG:105
Quality vs. economics: Where do you draw the line? DEC:152

Same-day surgery managers brace for financial fluctuations, MAR:39
Same-day surgery managers prepare for onslaught of managed care, explosion in outpatient surgery, JAN:1
SDS providers may feel jolt from adjustment to HCFA list, FEB:20
Want to net large savings? Modify your same-day surgery inventory practices, MAY:57

Freestanding centers

Administrator goes on offensive changing accepted practices, MAY:61
Co-administration: ASC finds success with unique approach, NOV:143
Follow these suggestions to sail through construction, inspection, APR:55
HCFA deletes procedures from ASC-approved list, FEB:21
Proposed deletions/additions to the current list of covered surgical procedures for ASCs, FEB:Supplement
SDS providers may feel jolt from adjustment to HCFA list, FEB:20
Survey of office managers helps hospital satisfy SDS surgeons, FEB:22
Want a smooth patient recovery? Check out advances in anesthesia, MAY:65

Government action

APGs are a step closer to reality as Iowa launches first outpatient PPS, JUL:85
Doing more complex procedures? You're not alone — Consider extended recovery care, OCT:125
HCFA deletes procedures from ASC-approved list, FEB:21
New guidelines may reduce the number of ENT surgeries, SEP:123
SDS providers may feel jolt from adjustment to HCFA list, FEB:20
TB standards mandate compliance regardless of risk factors, AUG:97

Health care reform

Florida offers glimpse of future health reform, JAN:9
Mergers and acquisitions: What in the world is going on out there? DEC:159
SDS managers move quickly to join integrated systems, JAN:6

Infection control

Administrator goes on offensive changing accepted practices, MAY:61
Don't perform same-day surgery on a TB patient without reading these tips from infection control experts, AUG:100
Relaxing universal precautions with laparoscopy courts danger, JUL:93
Sick of needlestick reports? Consider disciplinary panel, MAY:63

TB standards mandate compliance regardless of risk factors, AUG:97

Information systems

Computerizing inventory cuts costs, modernizes SDS, MAR:29
Consider these areas when buying SDS computer, FEB:26
Inventory practice tracks supplies and delivers 'just in time', MAY:59
Using your computer as a management tool, NOV:141

100% patient satisfaction: It's not an impossible dream, NOV:140
Quality vs. economics: Where do you draw the line? DEC:152
Same-day surgery cashes in on centers of excellence concept, MAY:70
Same-day surgery managers brace for financial fluctuations, MAR:39
SDS managers move quickly to join integrated systems, JAN:6
SDS managers' No. 1 problem in the 90s: Cost containment, OCT:134
Sick of needlestick reports? Consider disciplinary panel, MAY:63
Survey of office managers helps hospital satisfy SDS surgeons, FEB:22

Tips on dealing with the difficult physician, AUG:110

Using your computer as a management tool, NOV:141

Why wait for a recovery care center? Set up observation area, JUL:91

Marketing

Managers use creative strategies for selling their SDS services, MAR:31
New technique that eliminates snoring is marketer's dream, SEP:122
Patients aren't happy with SDS? Offer money-back guarantee, APR:47
Same-day surgery cashes in on centers of excellence concept, MAY:70

Medicare

APGs are a step closer to reality as Iowa launches first outpatient PPS, JUL:85
HCFA deletes procedures from ASC-approved list, FEB:21
High-tech eye surgery increasing thanks in part to Medicare cuts, JAN:11
Proposed deletions/additions to the current list of covered surgical procedures for ASCs, FEB:Supplement
SDS providers may feel jolt from adjustment to HCFA list, FEB:20

New procedures

Laparoscopic aspiration technique uses inexpensive needle, DEC:154
New technique that eliminates snoring is marketer's dream, SEP:122
SDS surgeons can't agree on hexagonal keratotomy, JAN:14

Nursing

Education is your best bet for same-day surgery success, NOV:Supplement
Empowering nurses: Hospital expands managerial functions, JUN:78
Facts on becoming certified in post-anesthesia nursing, FEB:24
Group announces certification for post-anesthesia nursing, FEB:24
The latest on critical pathways: Intra-op, post-op phases added, NOV:145
OR nurses strive to define their roles in IV conscious sedation, AUG:108
SDS nurses' responsibilities grow in era of health care reform, JAN:4

Ophthalmic procedures

FDA likely to grant approval for excimer laser keratotomy, JAN:13

High-tech eye surgery increasing thanks in part to Medicare cuts, JAN:11

SDS surgeons can't agree on hexagonal keratotomy, JAN:14

Orthopedic procedures

ASC hurdles obstacles to offer total knee replacement surgery, OCT:128

Patients/families

Experts debate NPO: An absolute rule or a guideline? APR:45

Managers revamp systems to focus on SDS patients, MAR:38

Move over inpatients — SDS moves into private rooms, APR:53

Patients aren't happy with SDS? Offer money-back guarantee, APR:47

You shouldn't have to do it alone: Involve MDs in patient education, AUG:103

Plastic/cosmetic surgery

Global settlement program for implant surgeons called off, AUG:112

Legitimate procedure or 'get-rich-quick'? SDS providers debate penile augmentation, NOV:137

QA/QI

Expect to search for standards in 1994 accreditation manual, MAY:69

Recovery care

Doing more complex procedures?

You're not alone — Consider extended recovery care, OCT:125

Move over inpatients — SDS moves into private rooms, APR:53

Want a smooth patient recovery? Check out advances in anesthesia, MAY:65

Why wait for a recovery care center? Set up observation area, JUL:91

Risk management

Relaxing universal precautions with laparoscopy courts danger, JUL:93

Sick of needlestick reports? Consider disciplinary panel, MAY:63

Surgeons

AMA puts economic credentialing under microscope, DEC:151

Diabetic patients require special care in same-day surgery, MAR:33

Don't perform same-day surgery on a TB patient without reading these tips from infection control experts, AUG:100

Economic credentialing: Does need for profitability jeopardize fairness to MDs? DEC:149

Gearing up for a new era in surgery: Robotic assistance, JUL:87

Global settlement program for implant surgeons called off, AUG:112

HCFA deletes procedures from ASC-approved list, FEB:21

It's music to the ears of surgeons, patients in SDS, DEC:161

Look over this list before choosing quality criteria, DEC:153

New guidelines may reduce the number of ENT surgeries, SEP:123

NH center nets \$14,000 by phasing in reusable instruments, AUG:101

Proposed deletions/additions to the current list of covered surgical procedures for ASCs, FEB:Supplement
